

Adil Khan

Full-Stack Developer

adil.782khan@gmail.com | github.com/adil782khan-art | adil782khan-art.github.io

SUMMARY

Full-stack developer who builds real applications across the MERN stack — from CRUD dashboards with authentication to CI/CD pipelines deployed with GitHub Actions and AWS. Doesn't just implement a pattern, but digs into why it works, and makes a habit of explaining what's built clearly enough to teach it.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript
Frontend	React, Redux, React Router, Bootstrap, Vite, HTML5/CSS3
Backend	Node.js, Express, RESTful API design
Databases	MongoDB (Mongoose/Atlas), SQL
DevOps / Tools	Git, GitHub Actions (CI/CD), AWS, Selenium, Cypress, Postman

SOFT SKILLS

Curiosity — digs into why a pattern works, not just how to use it. • **Communication** — explains what's built clearly enough to teach it. • **Adaptability** — picks up new stacks quickly across different project types.

PROJECTS

CodeBloggs — Full-Stack Social Blogging Platform

React, Redux, Node.js, Express, MongoDB, Selenium, GitHub Actions

- Frontend developer on a collaborative MERN social platform supporting posts, comments, likes, a member directory, and session-based authentication with an admin dashboard.
- Led a DevOps hardening pass: audited the Login and Home pages with Lighthouse and refactored them to raise Accessibility from 94 to 100 and SEO from 82 to 100.
- Built a 10-test Selenium regression suite covering navigation, form validation, and responsive layout; benchmarked performance against an external production site.

Rocket Elevators — Front-End Website

HTML5, CSS3, Bootstrap, JavaScript (ES6+), jQuery, REST API integration

- Built a multi-step quote calculator that dynamically computes elevator count and total pricing based on building type and live user input.
- Implemented a contact form with full client-side validation and a POST integration to a REST API, with real-time success/failure feedback.
- Built a sortable, filterable service-agents directory that fetches data from a GET endpoint, filters by rating threshold, and supports regional filtering.

EXPERIENCE

Small Business Assistant — Vending Machine Route

Independent Small Business (Dr. Hema Raj) — 2023–2025

- Independently managed and restocked a small vending machine route for a family friend's side business, handling inventory tracking, cash reconciliation, and basic equipment upkeep.
- Operated with minimal supervision over two years, demonstrating reliability and trustworthiness in a role built entirely on personal accountability.

EDUCATION

Hillsborough Community College — Associate of Arts (In Progress)

Transferring to the University of South Florida (USF)

Dr. Kiran C. Patel High School — Diploma
